

From November 2005 *Town Notes*:

Property Tax Reform: Governor Sanford, Senate President Pro Tem McConnell, and Speaker of the House Harrell have stated publicly, and confirmed to me personally, that property tax reform will be the single most important issue for the legislature in 2006. The final form of the legislation is far from being determined, and may require a State Constitutional amendment. We must keep the pressure on all of our legislators to follow through, and I assure you we shall at the Town level [Mayor Bill Wert].
